A BILL

To direct the Secretary of Health and Human Services, the Medicare Payment Advisory Commission, and the Medicaid and CHIP Payment and Access Commission to conduct studies and report to Congress on actions taken to expand access to telehealth services under the Medicare, Medicaid, and Children’s Health Insurance programs during the COVID–19 emergency.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

1 **SECTION 1. SHORT TITLE.**

2 This Act may be cited as the “Knowing the Efficiency
3 and Efficacy of Permanent Telehealth Options Act of
4 2021” or the “KEEP Telehealth Options Act of 2021”.

5 **SEC. 2. FINDINGS.**

6 Congress finds the following:

7 (1) On January 21, 2020, the United States
8 confirmed the Nation’s first case of the 2019 novel
9 coronavirus (which presents as the disease COVID–
10 19).

11 (2) On January 31, 2020, the Secretary of
12 Health and Human Services (in this Act referred to
13 as the “Secretary”) declared a public health emer-
14 gency in response to COVID–19.

15 (3) By March, the disease reached the pan-
16 demic level according to the World Health Organiza-
17 tion, and the President proclaimed the COVID–19
18 outbreak in the United States to constitute a na-
19 tional emergency.

20 (4) This emergency declaration authorizes the
21 Secretary “to temporarily waive or modify certain
22 requirements of the Medicare, Medicaid, and State
23 Children’s Health Insurance programs and of the
24 Health Insurance Portability and Accountability Act
25 Privacy Rule throughout the duration of the public

1 health emergency declared in response to the
2 COVID–19 outbreak”.

3 (5) Under this authority, the Secretary, and the
4 Administrator of the Centers for Medicare & Med-
5 icaid Services (in this Act referred to as the “Ad-
6 ministrator”) acting under the Secretary’s authority,
7 issued numerous rules, regulations, and waivers ena-
8 bling the expansion of telehealth services during the
9 public health emergency.

10 (6) Telehealth services play a critical role in en-
11 hancing access to care for patients while simulta-
12 neously reducing the risk of exposure to the corona-
13 virus for both patients and providers.

14 (7) The Administrator expanded access to tele-
15 health services under the public health emergency to
16 all Medicare beneficiaries (including clinician-pro-
17 vided services to new and established patients).

18 (8) On April 23, 2020, the Administrator re-
19 leased a telehealth toolkit to assist States in expand-
20 ing the use of telehealth through Medicaid and
21 CHIP.

22 (9) Expanded telehealth options are valuable
23 for all Americans during this public health crisis,
24 but especially for high-risk patients and rural Ameri-
25 cans who already have difficulty accessing care.
