H. R. 4989

To amend the Public Health Service Act to provide for the implementation of curricula for training students, teachers, and school personnel to understand, recognize, prevent, and respond to signs of human trafficking and exploitation in children and youth, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

AUGUST 10, 2021

Mr. BUCHANAN (for himself and Ms. WASSERMAN SCHULTZ) introduced the following bill; which was referred to the Committee on Energy and Commerce

A BILL

To amend the Public Health Service Act to provide for the implementation of curricula for training students, teachers, and school personnel to understand, recognize, prevent, and respond to signs of human trafficking and exploitation in children and youth, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Human Trafficking
5 and Exploitation Prevention Training Act”.

1 **SEC. 2. FINDINGS.**

2 Congress finds the following:

3 (1) According to the National Human Traf-
4 ficking Hotline, operated by the National Human
5 Trafficking Resource Center, there is no single pro-
6 file for trafficking survivors—trafficking survivors
7 include adults and minors from rural, suburban, and
8 urban communities across the country. Survivors of
9 human trafficking have diverse socioeconomic back-
10 grounds, varied levels of education, and may be doc-
11 umented or undocumented. According to the 2018
12 Trafficking In Persons Report produced by the De-
13 partment of State, the Department of Justice, the
14 National Human Trafficking Resource Center, and
15 Youth.gov, vulnerable populations and risk factors
16 for human trafficking include—

17 (A) children in the child welfare and juve-
18 nile justice systems;

19 (B) runaway youth;

20 (C) homeless youth;

21 (D) youth forced to leave home by parents
22 or caregivers with no alternate care arranged;

23 (E) unaccompanied children;

24 (F) American Indians and Alaska Natives;

- 1 (G) migrant laborers, including undocu-
2 mented workers and individuals with temporary
3 visas;
- 4 (H) recent migration or relocation;
- 5 (I) persons with disabilities;
- 6 (J) LGBTI individuals;
- 7 (K) people of color;
- 8 (L) those with limited-English proficiency;
- 9 (M) low literacy;
- 10 (N) substance abuse;
- 11 (O) mental health issues;
- 12 (P) past trauma or violence;
- 13 (Q) stigma or discrimination;
- 14 (R) family conflict, disruption, or dysfunc-
15 tion;
- 16 (S) community-level risk factors such as
17 peer pressure, social norms, social isolation,
18 gang involvement, and living in an under-
19 resourced school, neighborhood, or community;
20 and
- 21 (T) society-level risk factors such as lack
22 of awareness of commercial exploitation and
23 human trafficking, sexualization of children,
24 and lack of resources.

1 (2) According to the National Human Traf-
2 ficking Resource Center, human trafficking survivors
3 have been identified in cities, suburbs, and rural
4 areas in all 50 States, and in Washington, DC. The
5 3 States with the highest incidents of human traf-
6 ficking cases reported via phone calls, emails, and
7 online tips to the National Human Trafficking Hot-
8 line in 2018 were California, Texas, and Florida, re-
9 spectively.

10 (3) According to the National Human Traf-
11 ficking Resource Center, the top recruitment meth-
12 ods used by sex traffickers based on self-reported
13 data from survivors involve an intimate partner or
14 marriage proposition, family members, individuals
15 posing as a benefactor, offers of employment, or in-
16 dividuals perpetrating fraud or offering false prom-
17 ises.

18 (4) According to the National Center on Safe
19 Supportive Learning Environments, traffickers may
20 systematically target vulnerable children by fre-
21 quenting locations where children congregate—malls,
22 schools, bus and train stations, and group homes,
23 among other locations. Traffickers also use peers or
24 classmates who befriend the target and slowly groom
25 the child for the trafficker by bringing the child

1 along to parties and other activities. According to
2 Common Sense Media, nearly all children age 8 and
3 under live in a home with some type of mobile device
4 and use it every day. This is especially concerning
5 given that traffickers often recruit through social
6 media platforms and other websites.

7 (5) Those within vulnerable populations are
8 often exploited or groomed for entry into human
9 trafficking at a very young age. According to a 2005
10 clinical report, “The Evaluation of Sexual Abuse in
11 Children”, published by the American Academy of
12 Pediatrics, studies have suggested that each year ap-
13 proximately 739,000 children experience some form
14 of sexual abuse, resulting in the sexual victimization
15 of 12 percent to 25 percent of girls and 8 percent
16 to 10 percent of boys before the age of 18.

17 (6) Sex trafficking and exploitation can take
18 many harmful forms, including a lesser-known but
19 just as damaging form of uncoerced exploitation re-
20 ferred to as “survival sex”, meaning the exchange of
21 sex for basic needs including clothing, food, shelter,
22 or other basic necessities. Survival sex does not in-
23 volve a third-party trafficker or exploiter, and often
24 affects youth, including those who are homeless,
25 runaways, or housing-insecure, who lack the finan-

1 cial resources, job readiness, support system, or op-
2 portunity to afford or access these basic necessities.

3 (7) Training students, teachers, and school per-
4 sonnel to understand, recognize, and respond to
5 signs of human trafficking and exploitation in chil-
6 dren and youth is invaluable in the effort to identify
7 and prevent human trafficking and exploitation be-
8 fore it occurs. According to the National Human
9 Trafficking Resource Center, the widespread lack of
10 awareness and understanding of human trafficking
11 leads to low levels of survivor identification by the
12 people who most often encounter them. Survivors of
13 human trafficking are often forced to work or pro-
14 vide commercial sex against their will in legal and le-
15 gitimate business settings or underground markets.
16 It is often the case that those who are being ex-
17 ploited or trafficked are in plain view and may inter-
18 act with community members, underscoring the ur-
19 gent need for the expansion of training programs to
20 increase awareness and prevention activities in com-
21 munities across the United States.

1 **SEC. 3. DEMONSTRATION PROJECT TO TRAIN STUDENTS,**
2 **TEACHERS, AND SCHOOL PERSONNEL TO UN-**
3 **DERSTAND, RECOGNIZE, PREVENT, AND RE-**
4 **SPOND TO SIGNS OF HUMAN TRAFFICKING**
5 **AND CHILD EXPLOITATION.**
