## RESOLUTION

Supporting the goals and ideals of National Youth HIV  
& AIDS Awareness Day.

Whereas National Youth HIV & AIDS Awareness Day is a nationwide observance that calls on people to take action to invest in the health, education, and leadership of young people;

Whereas more than 30 years into the epidemic, the Centers for Disease Control and Prevention (CDC) estimates that in the United States more than 1,200,000 people are living with HIV, and every year approximately 40,000 people acquire HIV;

Whereas in the United States, almost 40 percent of new HIV infections are young people ages 13 to 20;

Whereas 44 percent of young people living with HIV (YPLWHIV) ages 13 to 24 are unaware of their HIV status;

Whereas African-American youth are most impacted by the epidemic, representing 57 percent of new transmissions in young people ages 13 to 24;

Whereas African-American young men who have sex with men (YMSM) ages 13 to 24 comprise 51 percent of new transmissions among all YMSM;

Whereas the Division of Adolescent and School Health (DASH) is the only Federal program supporting HIV prevention for adolescents in schools;

Whereas the Nation's largest Federal program dedicated to providing care and treatment for people living with HIV was named after Ryan White, a teenager from Indiana who helped educate a Nation about HIV and AIDS in the 1980s;

Whereas the Ryan White Part D Program is one of the national efforts to link YPLWHIV to medical care and support services;

Whereas the Patient Protection and Affordable Care Act (PPACA) provides youth, including those living with or impacted by HIV and AIDS, better access to health care coverage, more health insurance options, additional funding for sex education, a prohibition against denying people living with HIV access to health care, and expanded access to Medicaid which will support more YPLWHIV receiving care; and

Whereas April 10 of each year is now recognized as National Youth HIV & AIDS Awareness Day: Now, therefore, be it
