- 5 Congress finds the following:
- 6 (1) The dearth of civics lessons available to stu-7 dents across the United States has helped to foster 8 a political climate that is deeply partisan and di-9 vided.
 - (2) Polarized party politics in the United States has fractured public morale in our institutions and has created an environment in which people are less likely to be well-informed on the current state of affairs and to participate in the political process.
 - (3) According to the Annenberg Constitution Day Civics Survey conducted by the Annenberg Public Policy Center of the University of Pennsylvania—
 - (A) in 2018, only 32 percent of people in the United States surveyed were capable of naming all 3 branches of Government, while 33 percent of Americans were not able to name any of the branches of government;
 - (B) in 2018, 30 percent of people in the United States surveyed knew that the Senate is in charge of Supreme Court nominee confirmations; and

1	(C) in 2017, 37 percent could not name					
2	any of the rights guaranteed under the First					
3	Amendment.					
4	(4) In 2014, only 23 percent of eighth graders					
5	were found to have performed at or above the pro-					
6	ficient level on the National Assessment of Edu-					
7	cational Progress civics exam conducted by the Na-					
8	tional Center of Education Studies.					
9	(5) A lack of knowledge on the basics of the					
10	structure of our democratic republic creates an in-					
11	creasingly ill-prepared electorate which over time					
12	has, and will continue to, contribute to a weakened					
13	democracy.
