117TH CONGRESS 1ST SESSION

H. R. 1515

To amend the Federal Election Campaign Act of 1971 to provide for the treatment of payments for child care and other personal use services as an authorized campaign expenditure, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

March 2, 2021

Ms. Porter introduced the following bill; which was referred to the Committee on House Administration

A BILL

To amend the Federal Election Campaign Act of 1971 to provide for the treatment of payments for child care and other personal use services as an authorized campaign expenditure, and for other purposes.

- 1 Be it enacted by the Senate and House of Representa-
- 2 tives of the United States of America in Congress assembled,
- 3 SECTION 1. SHORT TITLE; FINDINGS; PURPOSE.
- 4 (a) Short Title.—This Act may be cited as the
- 5 "Help America Run Act".
- 6 (b) FINDINGS.—Congress finds the following:

- (1) Everyday Americans experience barriers to entry before they can consider running for office to serve their communities.
 - (2) Current law states that campaign funds cannot be spent on everyday expenses that would exist whether or not a candidate were running for office, like rent and food. While the law seems neutral, its actual effect is to privilege the independently wealthy who want to run, because given the demands of running for office, candidates who must work to pay for childcare or to afford health insurance are effectively being left out of the process, even if they have sufficient support to mount a viable campaign.
- (3) Thus current practice favors those prospective candidates who do not need to rely on a regular paycheck to make ends meet. The consequence is that everyday Americans who have firsthand knowledge of the importance of stable childcare, a safety net, or great public schools are less likely to get a seat at the table. This governance by the few is antithetical to the democratic experiment, but most importantly, when lawmakers do not share the concerns of everyday Americans, their policies reflect that.

- (4) These circumstances have contributed to a Congress that does not always reflect everyday Americans. The New York Times reported in 2019 that fewer than 5 percent of representatives cite blue-collar or service jobs in their biographies. A 2015 survey by the Center for Responsive Politics showed that the median net worth of lawmakers was just over \$1 million in 2013, or 18 times the wealth of the typical American household.
- (5) These circumstances have also contributed to a governing body that does not reflect the Nation it serves. For instance, women are 51 percent of the American population. Yet even with a record number of women serving in the One Hundred Sixteenth Congress, the Pew Research Center notes that more than three out of four Members of this Congress are male. The Center for American Women And Politics found that one-third of women legislators surveyed had been actively discouraged from running for office, often by political professionals. This type of discouragement, combined with the prohibitions on using campaign funds for domestic needs like childcare, burdens that still fall disproportionately American women, particularly disadvantages working mothers. These barriers may explain why

- only 10 women in history have given birth while serving in Congress, in spite of the prevalence of working parents in other professions. Yet working mothers and fathers are best positioned to create policy that reflects the lived experience of most Americans.
- 7 (6) Working mothers, those caring for their el-8 derly parents, and young professionals who rely on 9 their jobs for health insurance should have the free-10 dom to run to serve the people of the United States. 11 Their networks and net worth are simply not the 12 best indicators of their strength as prospective pub-13 lic servants. In fact, helping ordinary Americans to 14 run may create better policy for all Americans.
- 15 (c) Purpose.—It is the purpose of this Act to ensure that all Americans who are otherwise qualified to serve 16 this Nation are able to run for office, regardless of their 17 18 economic status. By expanding permissible uses of cam-19 paign funds and providing modest assurance that testing a run for office will not cost one's livelihood, the Help 20 21 America Run Act will facilitate the candidacy of representatives who more accurately reflect the experiences, challenges, and ideals of everyday Americans.
