## 117TH CONGRESS 2D SESSION

## H. R. 9058

To amend title 49, United States Code, to permit the operation of actively tethered unmanned aircraft systems by all first responders, and for other purposes.

## IN THE HOUSE OF REPRESENTATIVES

September 29, 2022

Ms. Johnson of Texas (for herself and Mr. Nehls) introduced the following bill; which was referred to the Committee on Transportation and Infrastructure

## A BILL

To amend title 49, United States Code, to permit the operation of actively tethered unmanned aircraft systems by all first responders, and for other purposes.

- 1 Be it enacted by the Senate and House of Representa-
- 2 tives of the United States of America in Congress assembled,
- 3 SECTION 1. SHORT TITLE.
- 4 This Act may be cited as the "First Responders Aer-
- 5 ial Act of 2022".
- 6 SEC. 2. DEFINITION OF ACTIVELY TETHERED UNMANNED
- 7 AIRCRAFT SYSTEMS.
- 8 Section 44801(1) of title 49, United States Code, is
- 9 amended—

| 1                                      | (1) in subparagraph (B) by striking "and" at                                                                                                                                                                                                                            |
|----------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2                                      | the end;                                                                                                                                                                                                                                                                |
| 3                                      | (2) in subparagraph (C) by striking the period                                                                                                                                                                                                                          |
| 4                                      | at the end and inserting a semicolon; and                                                                                                                                                                                                                               |
| 5                                      | (3) by adding at the end the following:                                                                                                                                                                                                                                 |
| 6                                      | "(D) has redundant flight functionality                                                                                                                                                                                                                                 |
| 7                                      | which permits the unmanned aircraft compo-                                                                                                                                                                                                                              |
| 8                                      | nent to maintain normal flight control in the                                                                                                                                                                                                                           |
| 9                                      | event that a rotor or flight mechanism fails                                                                                                                                                                                                                            |
| 10                                     | during flight; and                                                                                                                                                                                                                                                      |
| 11                                     | "(E) is programed to initiate a controlled                                                                                                                                                                                                                              |
| 12                                     | landing in the event of a tether separation.".                                                                                                                                                                                                                          |

| 12 | control personnel for an airport if              |
| 13 | such systems are operating closer to             |
| 14 | an airport than permitted under sub-             |
| 15 | clauses (I) and (II);"; and                      |
| 16 | (2) by adding at the end the following:          |
| 17 | "(5) Definitions.—In this subsection:            |
| 18 | "(A) Emergency response situa-                   |
| 19 | TION.—The term 'emergency response situa-        |
| 20 | tion' means any situation that requires a re-    |
| 21 | sponse by an emergency service organization.     |
| 22 | "(B) Emergency service organiza-                 |
| 23 | TION.—The term 'emergency service organiza-      |
| 24 | tion' means any entity, including an entity con- |
| 25 | tracting with a State or local government, that  |

| 1  | provides emergency services or training for                |
|----|------------------------------------------------------------|
| 2  | emergency service providers, including—                    |
| 3  | "(i) a fire department;                                    |
| 4  | "(ii) a police department;                                 |
| 5  | "(iii) a search and rescue organiza-                       |
| 6  | tion; and                                                  |
| 7  | "(iv) a public safety organization.                        |
| 8  | "(C) Public actively tethered un-                          |
| 9  | MANNED AIRCRAFT SYSTEM.—The term 'public                   |
| 10 | actively tethered unmanned aircraft system'                |
| 11 | means an actively tethered unmanned aircraft               |
| 12 | system that is—                                            |
| 13 | "(i) a public unmanned aircraft sys-                       |
| 14 | tem; and                                                   |
| 15 | "(ii) operated by an emergency service                     |
| 16 | organization.".                                            |
| 17 | (b) AGENCY GUIDANCE.—Not later than 90 days                |
| 18 | after the date of enactment of this Act, the Administrator |
| 19 | of the Federal Aviation Administration shall issue guid-   |
| 20 | ance on the implementation of the amendments made by       |
| 21 | this section.                                              |
